Site Description

This air monitoring station is located at the top of Mt. Washington and is operated by the University of New Hampshire (UNH). Relative to Ozone, DES ensures that all EPA required quality assurance is run on the analyzer, validates the data and inputs the data into the EPA-AQS database. This air monitoring station is located in the Observatory Tower.

Pollutants/Parameters

Ozone - Wind Speed - Wind Direction - CO (Trace) - SO₂ (Trace) - NO_y (Trace). For more information relative to these parameters please go to the following UNH link:
